About Us

Located in Ningbo City, Zhejiang Province, Ningbo Hento Metal Products Co., Ltd is a professional manufacturer integrated with production and R & D

Products are widely used in industries such as medical equipments, petroleum, chemical, electric power, automobile, food, railway, mining and shipping etc.

The main materials contain: stainless steel 304, 304L, 316, 316L, A182-F316L, zinc aluminum alloy, alloy steel, copper, ductile iron, gray iron, etc.

The production processes involve: all-silica sol precision casting, forging, precision machining; Precision casting, zinc-Aluminum die casting, stamping, welding, and profiles, etc.

Production tolerance can be made within 0.01mm(0.0004in); Roughness can be controlled at Ra0.4

90% of our products are exported to countries and regions such as the United States, European Union, etc.

Manufacturing equipment: CNC machining center, CNC lathe, as well as related auxiliary equipments;

Testing equipment: tensile strength tester, durometer, projector, coordinate measuring machine, etc

Surface treatment: powder spraying, painting, electroplating, electrophoresis, polishing, etc.

Certificate of Honor: has passed ISO9001 and PED certification

With many years' rich experience in international trade, we can provide better international service and hope to establish business relations with countries all over the world. We have a professional design and technical team to ensure the stability of product manufacturing. Welcome to develop and design new products

Our commitment:

We only make products that satisfy our clients.

Enterprise Culture

Enterprise Core Values

People oriented
Appoint people by talents
Perseverance
Dare to blaze new trails

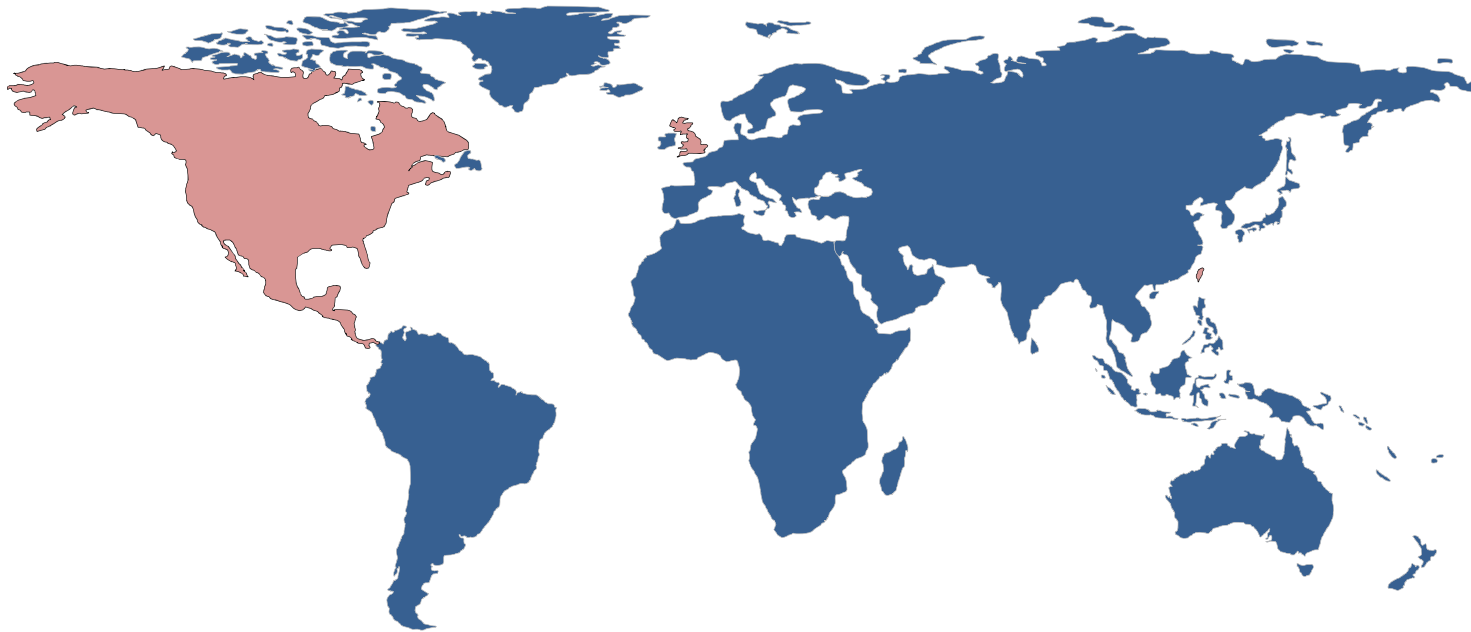

Enterprise Spirit

Prominent technology
World-class products
Advanced management
To be the leader in machinery manufacturing

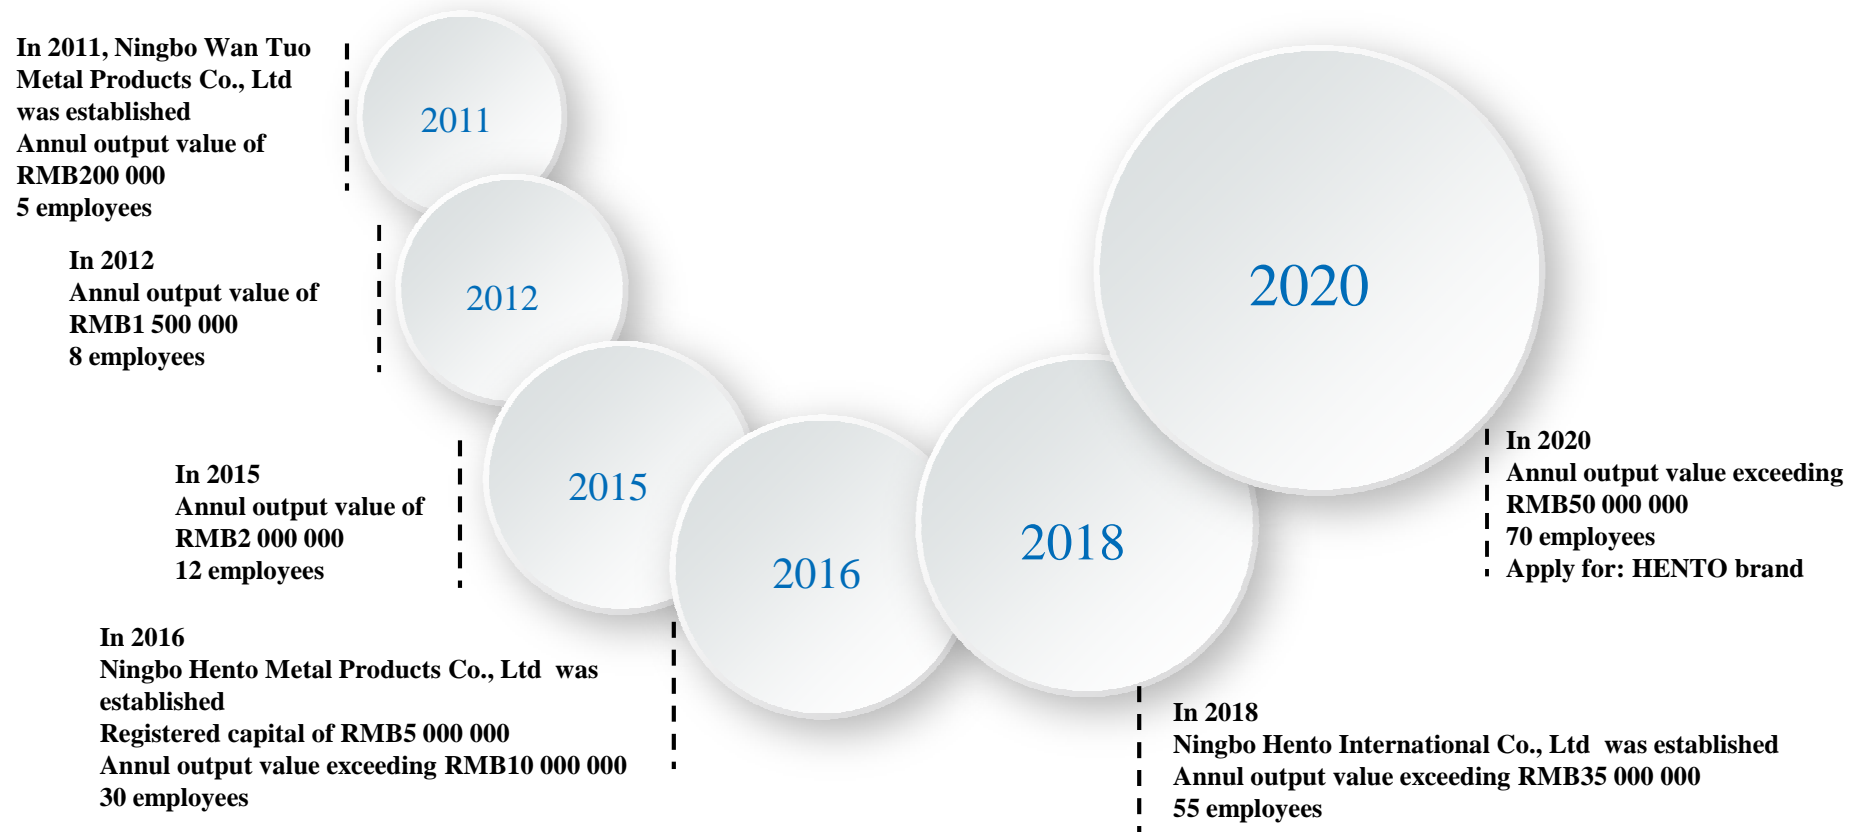

Enterprise Mission

Create value for clients
Share value with employees
Contribute value to society

Marketing Network

Development History

Quality Management

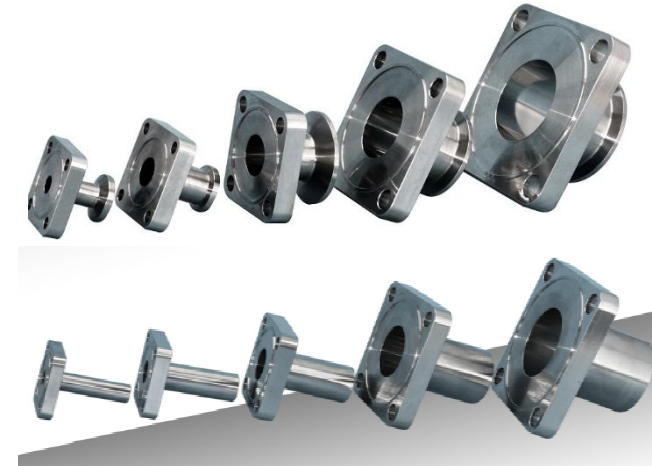

Quality guidelines:
Keep improving
Strive for excellence

Quality objectives:
The one-time pass rate of products is over 98%;
Customer satisfaction rate reaches above 90%.

Product Display

Forged high purity stainless steel valve series

Material: A182 - F316L

Specification: 1/2", 3/4", 1", 1-1/2", 2", 2-1/2", 3", 4"

Technical requirements and applications:

Ferrite: 0.5%-1%

Sulfur content: 0.005-0.017%

Surface roughness Ra0.8; Bore roughness Ra0.4

Mainly used in pharmaceutical industry

Product Display

High pressure valve fitting series

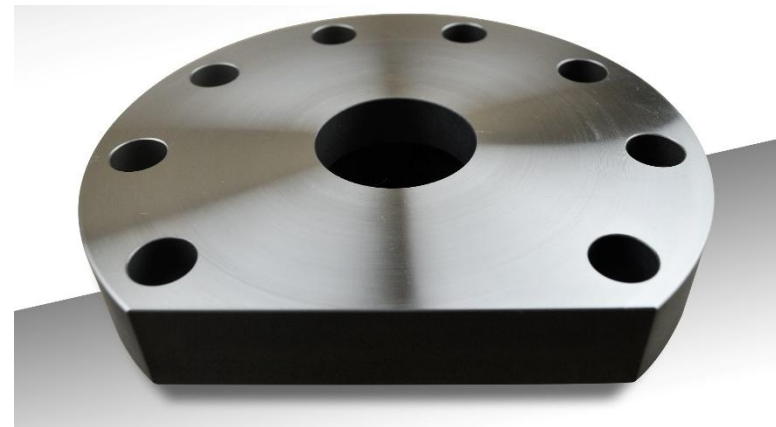

Material: A105

Specification: 1/2", 3/4", 1", 1-1/2", 2"

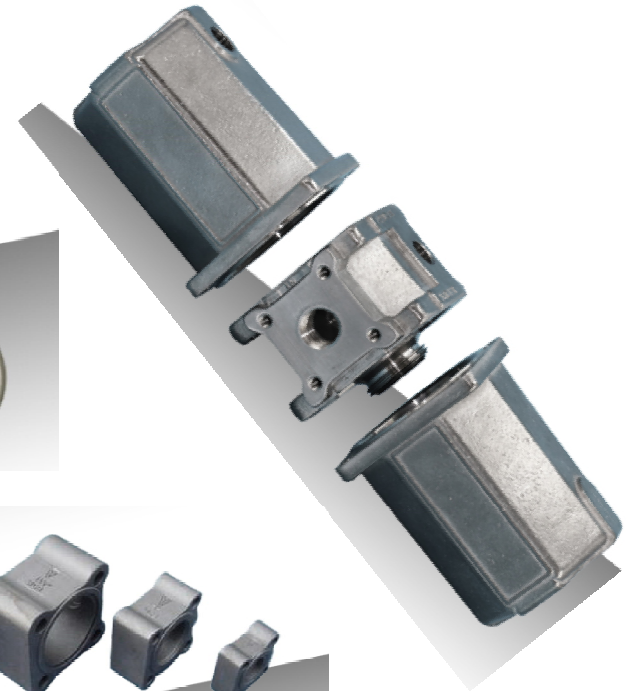

Technical requirements and applications:

Surface roughness Ra0.8; Roughness Ra0.4

Mainly used in petrochemical industry

Product Display

Stainless steel valve fitting series

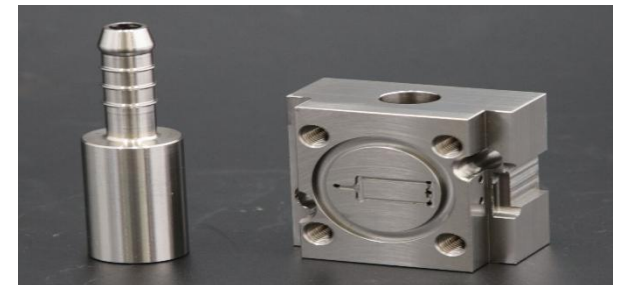

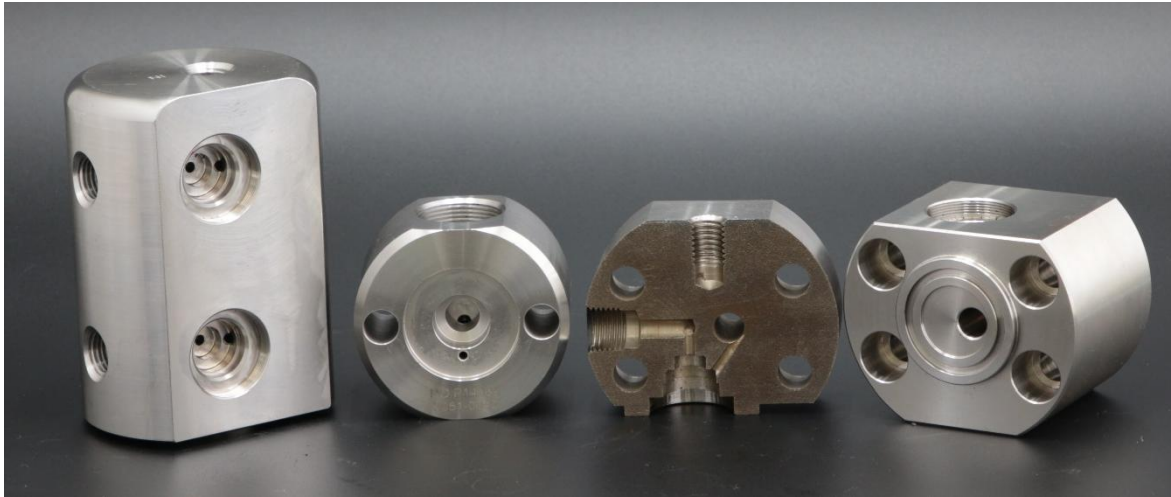

Materials: 304, 304L, 316, 306L

Technology: all-silica sol precision casting and forging

Specification: 1/2", 3/4", 1", 1-1/2", 2", 2-1/2", 3", 4"

Mainly for industrial and civil use

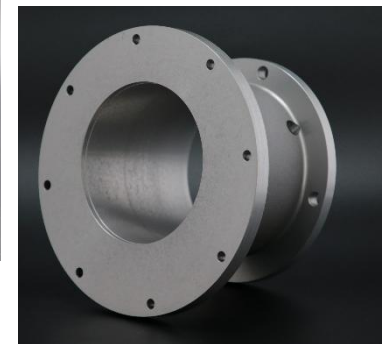

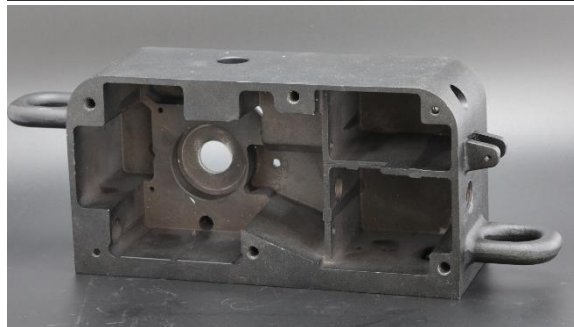

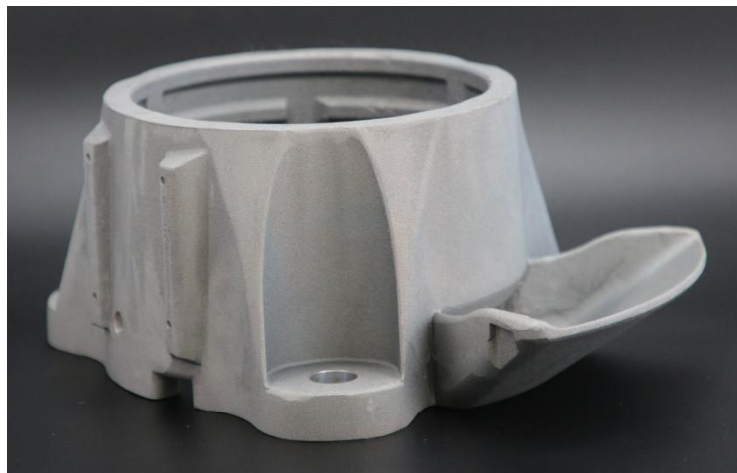

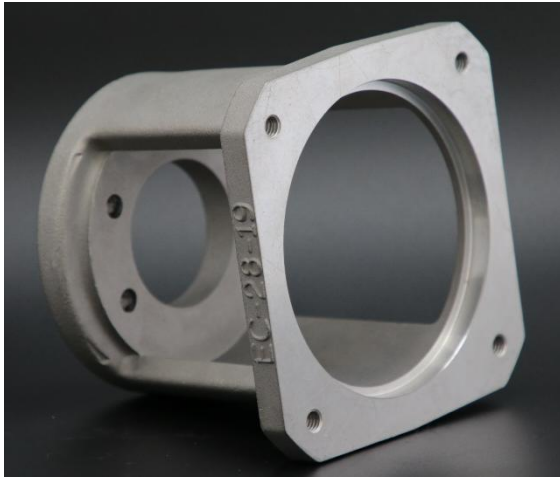

Product Display

Stainless steel valve series
Materials: 304, 304L, 316, 316L
Mainly for industrial and civil use

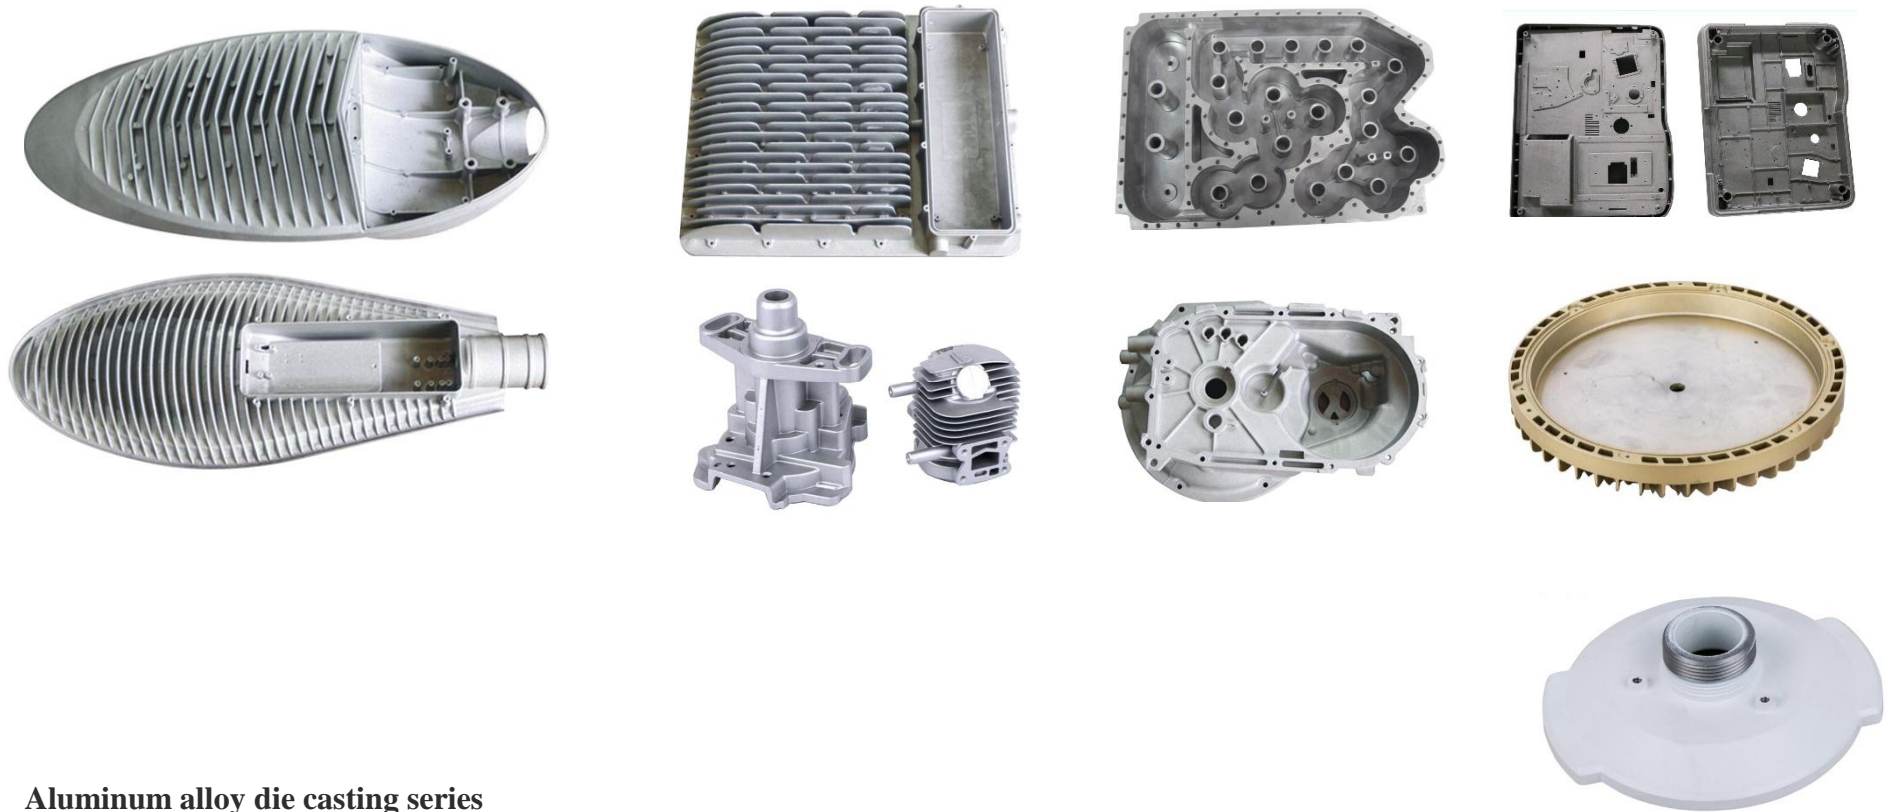

Product Display

Aluminum alloy casting series

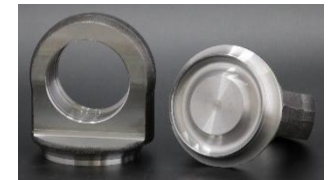

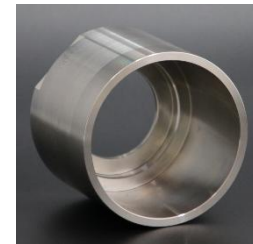

Low pressure casting, gravity casting, foundry casting, etc

Product Display

Aluminum alloy die casting series
180T-1800T outsourcing workblank

Product Display

Forging series

Materials: stainless steel, aluminum alloy, carbon steel, copper

120T-2000T outsourcing workblank

Product Display

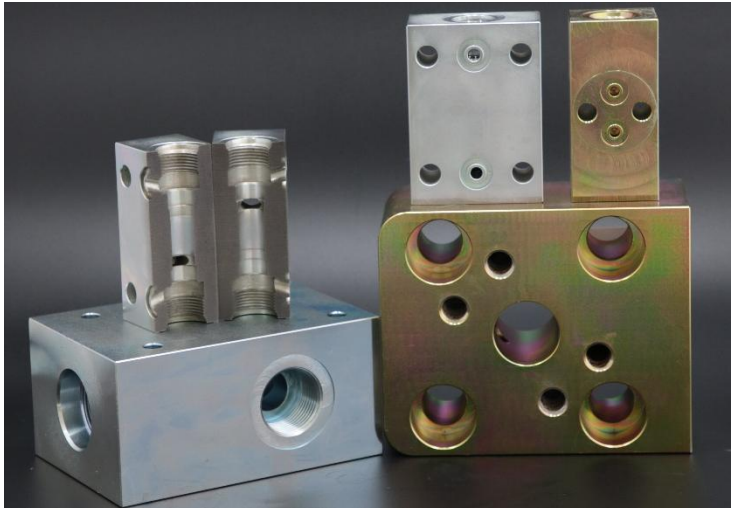

Casting series

Materials: steel, ductile iron, gray iron, copper

Technology: all-silica sol, sodium silicate, coated sand, clay sand, etc

Product Display

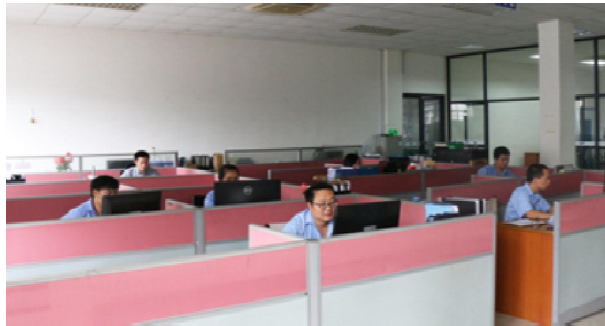

Other processing series

Materials: steel, aluminum alloy, stainless steel, aluminum bronze, etc

High precision machining with supplied drawings and samples

Workshop Display

The company covers an area of 3000 square meters with 500 square meters of office area. The International Trade Department was set up in Ningbo Southern Business Area in 2020

Production equipment: 13 sets of machining center; 16 sets of precision CNC, 3 sets of imported high precision CNC machine tool

Equipped with high quality testing room
The Company currently has 70 employees;
Manufacture in 24 hours with three shifts
Including 2 senior engineers, 4 engineers and 8 full-time quality control personnel

Display of Outsourcing Units

Outsourcing units with long-term cooperation

Forging 120-2000T; Aluminum die casting 180-1800T

Production lines of all-silica sol casting, sodium silicate, automatic ductile iron and gray iron

Outlook of the Company

From its establishment in 2011 to 2020, the Company has experienced rapid development in 9 years with the joint efforts of all staffs, with an average annual growth rate of 40%.

We will continue to work hard. In the next five years, we will focus on the development of stainless steel products and high-quality valve products. Our goal is to achieve an annual output of USD10-15 million by 2025

Ningbo Wan Tuo Metal Products Co., Ltd mainly expands domestic business

Ningbo Hento Metal Products Co., Ltd mainly develops international business

NINGBO HENTO INTERNATIONAL CO., LTD was established to make preparation for the establishment of foreign offices and branches in future
